MAYA44 USB+
4-in/4-out USB Audio Interface

MAYA44 USB+ is a powerful, affordable and very stylish USB audio solution for home recording - a perfect solution for mobile live and recording applications!

Beside standard recording and playback functionality, MAYA44 USB provides everything that is needed for professional music production. In its compact aluminium case MAYA44 USB+ provides 4 analog input and 4 analog output channels with RCA connectors and a combined optical S/PDIF digital output / stereo headphone output. The headphone output provides a separate stereo output signal, making it perfect for DJs.

With support for ASIO 2.0, CoreAudio and MME / WDM, MAYA44 USB+ is compatible to all major music and DJ applications like Cubase, Logic, Sonar, Reason, Reaktor, MixVibes, Traktor DJ Studio, BPM Studio and much more.

MAYA44 USB+ will ship to ESI resellers around the globe within summer 2012.
