small & powerful

UGM192

UGM192 is half the size of a smartphone and as lightweight as a bar of chocolate.
This ultra-compact interface with 24-bit / 192 kHz / 114dB audio quality can be connected to a PC or Mac,
as well as to any smartphone or tablet with USB audio support. Record electric instruments (i.e. guitar) and microphone (dynamic or condenser) on the go. There are no creative boundaries!

No more compromises.
